

Survival and Success in the Brave New World of Health Care Reform

Health care reform has arrived. Over the next few years, the impact of the recent legislation will be felt by all healthcare providers.

How will you respond?

In this seminar we will discuss the steps providers can begin to take to not only survive reform, but to be successful with the opportunities the reform legislation provides. We will discuss issues such as:

- What should you begin to review operationally to comply with the legislation
- What impact should you expect as an employer
- What impact should you expect as a provider
- What are the key areas of opportunity the reform legislation offers

Presented by:
